New York State Department of Taxation and Finance New York State Resident Credit Against Separate Tax on Lump-Sum Distributions

Last name	Your social security number
	Last name

New York State residents should use this form to claim a credit against the New York State separate tax on lump-sum distributions for any income tax imposed by another state, a political subdivision of that state, the District of Columbia, or a province of Canada on the ordinary income part of a lump-sum distribution derived from a business, trade, profession, or occupation carried on within that other jurisdiction.

IT-112.1

If you elect the capital gain method of reporting the lump-sum distribution on Part II of Form IT-230, *Separate Tax on Lump-Sum Distributions*, use Form IT-112-R, *New York State Resident Credit*, to compute the resident credit on the capital gain part.

Compute the credit for income tax imposed by another state, political subdivision of that state, or the District of Columbia on the front of this form. If you claim credit for income taxes paid to a province of Canada, use the back of this form.

- 1 Enter the name of the state, local government (including state in which located), or District of Columbia to which tax on the ordinary income part of lump-sum distributions was payable: ______

The amount to be entered above is the amount of separate tax on the ordinary income part of lump-sum distributions required to be paid after subtracting any credit against the separate tax (other than prepayments made through withholding or estimated tax).

If the ordinary income part of a lump-sum distribution is not subject to a separate tax by the above jurisdiction but is included as income under an income tax imposed by the above jurisdiction, determine the amount to be entered above using the following formula:

Amount from federal Form 4972, line 8 that is subject to tax by the above jurisdiction Total income subject to tax by the above jurisdiction	\$ X	Total tax payable to the above jurisdiction <u>\$</u> (after any credits, exclusive of prepayments)	=	Amount constituting a separate tax on the ordinary income part of lump-sum distributions imposed by the above jurisdiction (line 2)
--	------	--	---	--

3 The credit against New York State separate tax on lump-sum distributions may not exceed:

(a) Amount from Form IT-230, line 3 that is subject to tax by both New York State and the other taxing jurisdiction \$ Amount from Form IT-230, \$ line 3	New York State amount from Form IT-230, line 24	Credit allowable 3.
--	--	----------------------------

- (b) The credit allowed may not reduce the New York State separate tax on the ordinary income part of lump-sum distributions to an amount less than would be due if the ordinary income part of a lump-sum distribution, subject to tax by both New York State (Tax Law section 603) and by the above jurisdiction, were excluded from New York State separate tax on lump-sum distributions.

Resident individuals — Transfer the line 4 amount to Form IT-201-ATT, line 33.

Part-year resident individuals — Transfer the line 4 amount to Form IT-203-B, line 17.

Estates and trusts — Subtract the line 4 amount from the separate tax on lump-sum

distributions computed on Form IT-230, and transfer the net amount to Form IT-205, line 12.

Attach this form, a copy of federal Form 4972, a copy of the income tax return filed with the other state, locality, or District of Columbia, and, if applicable, a copy of the separate tax computation schedule filed with the other state, locality, or District of Columbia to Form IT-201, IT-203, or IT-205. Failure to do so will delay any refund to which you may be entitled or, if you owe taxes, could result in late filing penalties.

IT-112.1 (2003) (back)

Figuring your resident credit against separate tax on lump-sum distributions paid to a province of Canada

- 5 Enter the name of the province of Canada where tax was paid: _____

The amount to be entered is the amount of separate tax on the ordinary income part of lump-sum distributions required to be paid after subtracting any credit against the separate tax (other than prepayments made through withholding or estimated tax).

If the ordinary income part of a lump-sum distribution is **not** subject to a separate tax by a Canadian province but is included as income under an income tax imposed by the province, determine the amount to be entered above using the following formula:

Amount from federal Form 4972, line 8 that is subject to tax by the above Canadian province Total income subject to tax by the above Canadian province		Total tax payable to the above Canadian province (after any credits, exclusive of prepayments)	\$=	income part of lump-sum
