Certification for Non-Highway Diesel Motor Fuel and Residual Petroleum Product Used for Commercial Purposes (Other Than Manufacturing or Farming)

FT-1014

Purchasers and sellers: Read the information on page 2 and certifications below carefully before giving or accepting this certificate.

Sellers: Your sales are subject to the applicable taxes on diesel motor fuel or residual petroleum product unless the purchaser gives you a properly completed certification no later than 90 days after the delivery of the product sold. Keep the certificate for at least three years.

•	ted certification no later than 90 day asers: This certificate must be com	,	,	'	sold. Keep the certificate for at least thi	ree years.

Instructions

General information

This certificate can be used to claim exemption from the petroleum business tax, diesel motor fuel tax, and NYS sales and use tax on non-highway diesel motor fuel and residual petroleum product for commercial purposes other than fuel used in manufacturing and farm production. The certificate may not be used for sales to exempt not-for-profit organizations or rate-regulated utilities producing electricity. You may use it for a single purchase or for blanket purchases of one specific type of product. If the fuel is delivered into a single fuel tank but will be used for different purposes, enter the percentage of fuel allocated for each item in Parts 1 and 2. This allocation must be supported by an engineering study.

For farm production, use Form FT-1004, Certificate for Purchases of Non-Highway Diesel Motor Fuel or Residual Petroleum Product for Farmers and Commercial Horse Boarding Operations.

For manufacturing, use Form FT-1012, *Manufacturing*Certification for Non-Highway Diesel Motor Fuel and Residual
Petroleum Product.

For exempt organizations, use Form FT-1021-A, Certification for Purchases of Non Highway Diesel Motor Fuel or Residual Petroleum Product by Certain Exempt Organizations.

Definitions

Commercial gallonage means gallonage that:

- is non-highway diesel motor fuel or residual petroleum product;
- is included in the full measure of the non-highway diesel motor fuel component or the residual petroleum product component of the petroleum business tax;
- · does not and will not qualify:
 - for the utility credit or reimbursement,
 - as manufacturing gallonage,
 - for the not-for-profit organization exemption, or
 - as fuel used for heating/cooling; and
- will not be used and has not been used in the fuel tank connecting with the engine of a vessel.

Non-highway diesel motor fuel means any diesel motor fuel that is designated for use other than on a public highway (except for the use of the public highway by farmers to reach adjacent lands), and is dyed diesel motor fuel.

Highway diesel motor fuel means any diesel motor fuel which is not non-highway diesel motor fuel.

Dyed diesel motor fuel means diesel motor fuel which has been dyed in accordance with and for the purpose of complying with the provisions of 26 USC 4082(a).

Residual petroleum product means the topped crude of refinery operations including No. 5 fuel oil, No. 6 fuel oil, bunker C, and the special grade of diesel product designated as No. 4 diesel fuel, that is not suitable for use in the operation of a motor vehicle engine. This product is sometimes used for the production of electric power, space heating, vessel bunkering, and other industrial purposes.
