## **SUMMARY OF 2005 REAL PROPERTY TAX LEGISLATION**

This document provides a general summary of legislation enacted in 2005 relating to real property tax administration. The descriptions it contains are intended only as a source of general information about the major features of these new laws. For a more detailed and authoritative account of what these new laws do, the best resource is, of course, the laws themselves.

The terms “State Board” and “ORPS” as used herein refer to the New York State Board of Real Property Services and Office of Real Property Services, respectively. All statutory citations herein are to the Real Property Tax Law (RPTL), unless otherwise noted.

## **B. MAJOR ITEMS**

A closer look at some of the more noteworthy legislative enactments of 2005, from the standpoint of real property tax administration, appears below.

### **ASSESSMENT ADMINISTRATION**

#### **Temporary Additional Incentives for CAPs**

Chapter **216** provides a temporary additional financial incentive for assessing units to form Coordinated Assessment Programs (CAPs). A CAP is an inter-municipal agreement under which two or more assessing units agree to share the same assessor, assess property at the same level of assessment, and follow the same assessment calendar (Real Property Tax Law, §579; *see also* General Municipal Law, Article 5-G).

Under pre-existing law, each assessing unit participating in a CAP was entitled to a one-time payment of \$7 per parcel, up to a maximum of \$140,000 (RPTL, §1573(3)(a)). Under Chapter 216, an additional payment of \$5 per parcel is now available, up to a maximum of \$100,000, subject to the availability of funding, where (1) an assessing unit joins a CAP that is implemented or expanded in 2006, 2007 or 2008, and (2) the assessing unit has never previously participated in a CAP. Combined with the pre-existing aid, this makes for a total aid payment of \$12 per parcel, up to a maximum of \$240,000.

For a CAP that is to be implemented on a 2006 roll, aid applications must be submitted to ORPS by February 1, 2006. The aid, if approved, would be paid out of funds appropriated for the 2005-06 fiscal year. For a CAP to be implemented on a 2007 or 2008 roll, aid applications must be submitted to ORPS by February 1, 2007. If approved, the aid would be paid out of funds appropriated for the 2007-08 fiscal year. An assessing unit that receives this extra aid but either fails to participate in the CAP after filing its application, or does not stay in the CAP for 10 years, will have to remit some or all of the extra aid to the State.

---

#### **SCAR Equalized Value**

Chapter **215** increases from \$150,000 to \$450,000 the “equalized value” of real property which may receive an assessment reduction through Small Claims Assessment Review (SCAR) with no cap on the allowable reduction. Where the equalized value exceeds \$450,000, the authorized assessment reduction may not exceed 25 percent of the assessed value of the parcel. (Previously, the 25% cap applied to parcels with equalized value in excess of \$150,000). For this purpose, “equalized value” continues to be defined as “the assessed value of the property divided by the most recent equalization rate or, in the case of a special assessing unit, the most recent class one ratio, when established” (RPTL, §730(1)(d)).

---

#### **Flood Assessment Relief**

Chapters **42** and **132** enacted the “Flood Assessment Relief Act of 2005,” providing real property tax relief, at local option, for victims of the severe storms and resulting flooding that hit

those counties in early April, 2005. Under this legislation, the governing bodies of 21 counties – Broome, Cayuga, Chautauqua, Chenango, Columbia, Cortland, Delaware, Greene, Madison, Montgomery, Niagara, Orange, Otsego, Putnam, Rensselaer, Schenectady, Schoharie, Sullivan, Tioga, Ulster, and Westchester – were authorized to adopt a resolution by July 1, 2005 allowing property that was “catastrophically impacted” by the flood to be reassessed based upon its physical condition as of April 15, 2005, as opposed to the otherwise applicable taxable status date (generally, March 1, 2005). The eligibility criteria and specific procedures for obtaining such relief are set forth at length in the legislation (and were also distributed by ORPS when the legislation was approved).

Chapter **222** enacted the “North Country Flood Assessment Relief Act of 2005,” establishing a very similar program for victims of the severe storms and flooding that hit Essex and Warren Counties in mid-June, 2005. Under this legislation, the governing bodies of those two counties were authorized to adopt a resolution by July 15, 2005 allowing property that was “catastrophically impacted” by the flood to be reassessed based upon its physical condition as of July 1, 2005. As with the original Flood Assessment Relief Act of 2005 (*i.e.*, Ch. 42), the applicable criteria and procedures are set forth at length in the legislation (and were also distributed by ORPS when the legislation was approved).

---

#### Fulton County 2005 Tentative Assessment Rolls

Chapter **177** authorizes any Fulton County town board to adopt a local law or resolution to cancel any previously filed 2005 tentative roll and postpone the filing of such a roll until not later than July 31, 2005. If a town board does so, it is further empowered to prescribe a 2005 assessment roll calendar including (i) a new tentative roll filing date, (ii) notifications to property owners advising of any assessment increases, and (iii) a new grievance day on which the board of assessment review will receive complaints and a deadline by which such board will notify the assessor of its ordered changes.

Upon signing this legislation, Governor Pataki issued an Approval Message (#2), a copy of which appears below.

---

#### Special Franchises and Equalization

Chapter **743** modifies the procedures for equalizing assessments of special franchise property in most assessing units. Under the legislation, ORPS generally will no longer establish special franchise assessments by multiplying the full values it has determined by the latest State equalization rate or special equalization rate. Instead, ORPS will provide the full values it has determined directly to assessors, who will put them on the assessment roll after equalizing them at the stated level of assessment (LOA) applicable to that roll (RPTL, §606). If the State equalization rate (or in a special assessing unit, the Class 3 equalization rate) that is subsequently determined for that roll differs from the LOA, the special franchise assessment must be corrected so that it equals the ORPS-determined full value multiplied by the equalization rate (RPTL, §§550(7)(e), 553(1)(h), which provide for the assessment to be increased or decreased, whichever is appropriate).

These new procedures do not apply, however, to assessing units with “pegged” property (*i.e.*, assessing units which have not done a revaluation since 1953 and which still contain special franchise property that was in place in 1953). In those cases, special franchise assessments shall continue to be determined using the long-standing methodology (*i.e.*, ORPS will establish a tentative special franchise assessment which will equal the full value determined by ORPS multiplied by the latest State equalization rate or special rate).

### Subsidized Rental Housing

Chapter **714** prescribes a methodology for assessing residential rental property where at least 20% of the residential units are reserved for tenants who satisfy an income test, in accordance with an agreement with a governmental entity. In such cases, the assessed value of the property is to be determined using the income approach as applied to the actual net operating income, after deducting for reserves required by any federal, state or municipal programs. For this purpose, “net operating income” means “the actual or anticipated net income that remains after all operating expenses are deducted from effective gross income, but before mortgage debt service and book depreciation are deducted.” The assessor must disregard any income tax credits, subsidized mortgage financing, or project grants, where such subsidies are used to offset the project development cost in order to provide for lower initial rents as determined by regulations promulgated by the Division of Housing and Community Renewal.

## EXEMPTION ADMINISTRATION

### Agriculture

Several measures were enacted in 2005 to ease the property tax burden upon the State’s agricultural sector. In particular:

- Chapter **200** modifies the Agricultural Districts Program (Agriculture and Markets Law, Article 25-AA) by adding “wool bearing animals, such as alpacas and llamas” to the definition of “livestock” whose production for sale may qualify commercial farmland as “land used in agricultural production” eligible to receive an agricultural assessment. Previously, the only wool bearing animal that was specifically included within this definition was sheep.
- Chapter **587** modifies the Agricultural Districts Program by allowing a commercial horse boarding operation to receive an agricultural assessment in its first or second year if it has at least seven acres and annual gross receipts of at least \$10,000. Previously, commercial horse boarding operations could not receive agricultural assessments unless they had been operating for at least two years.
- Chapter **667** expands the exemption for farm structures and buildings (RPTL §483) to include structures and buildings used as “indoor exercise arenas exclusively for training and exercising horses in connection with the raising and production for

sale of agricultural and horticultural commodities or in connection with a commercial horse boarding operation” as defined in AML § 301.<sup>1</sup> This does not apply to “riding academies or dude ranches,” however.

The related Agricultural Property School Tax Credit, authorized under the Tax Law, has also been expanded. Chapter **632** provides that for purposes of the credit, “federal gross income from farming” includes gross income from commercial horse boarding operations. Chapter **728** extends the credit to qualified agricultural property owned by the father, mother, grandfather, grandmother, brother or sister of the taxpayer where a written agreement expressing intent to eventually purchase the land has been entered into.

Also noteworthy are Chapter **527**, which authorizes municipalities to develop agricultural and farmland protection plans, including plans for land use regulation, with State financial and technical assistance, and Chapter **573**, which includes “timber processing” within the definition of “farm operation,” thereby bringing such activity within the scope of the “Right to Farm” protections (AML, §308). Note that these protections now also generally extend to a commercial horse boarding operation that is proposed or in its first or second year of operation, by virtue of Chapter **587**, discussed above.

#### Alternative Veterans Exemption; Local Limits

Chapter **256** permits municipalities which offer the alternative veterans exemption to increase the market value “caps” that apply to the exemption. These caps set the upper limit on how much of a home’s value may be exempted from local taxation. Prior to the enactment of Chapter 256, a municipality offering the exemption could either leave the market value equivalent of the cap at \$80,000 (the default), reduce it to \$60,000 or \$40,000, or increase it to \$100,000, \$120,000, \$140,000, \$160,000, or \$180,000 (and in New York City only, \$300,000). These caps remain available under Chapter 256, but municipalities now may increase the caps further, to \$200,000, \$220,000, or \$240,000.

Further, in areas with especially high housing costs, referred to in the statute as “high-appreciation” municipalities, Chapter 256 permits the caps to be set as high as \$260,000, \$280,000, \$300,000, \$320,000, \$340,000, or \$360,000. For this purpose, a “high-appreciation municipality” is (1) New York City, (2) a county for which ORPS has established a sales price differential for purposes of the STAR exemption for three consecutive years, and (3) the cities, towns, and villages within such counties. The counties which currently satisfy this definition are Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, and Westchester Counties, so those counties and the municipalities therein may offer these higher caps (as may New York City).

Finally, Chapter 256 also requires additional information to appear on property tax bills when an exemption has been granted. Under pre-existing law, each tax bill must display the assessed value of any exemptions applied to the parcel (RPTL, §922(1)(a)(iii)). This requirement remains in effect, but effective in 2007, each tax bill will also be required to display

---

<sup>1</sup> Under AML §301, a “commercial horse boarding operation” must have at least seven acres, must board at least ten horses, and must receive at least \$10,000 annually either through horse boarding, agricultural production, or both. It cannot be an operation “whose primary on site function is horse racing.”

the full value which each such exemption represents. This change applies to all exemptions, not just the alternative veterans exemption.

The new caps authorized by Chapter 256 take effect January 2, 2006 and apply to assessment rolls based upon taxable status dates occurring on or after such date. The tax bill change applies to tax bills pertaining to fiscal years beginning on or after January 1, 2007.

#### STAR Income Verification Program Notices (Postcards)

Chapter **742** revises the content of the annual notices (postcards) that are sent to Enhanced STAR recipients who have chosen to participate in the Income Verification Program (IVP). The new notices will more clearly advise the recipient of the results of the match conducted by the State Department of Taxation and Finance, and what those results mean.

Generally, participants who have been found to be income-eligible will receive a notice stating that they remain eligible for the enhanced STAR exemption and that they need not contact the assessor unless the property is no longer their primary residence or there has been a change in ownership. (They will also be reminded to contact the assessor if their primary residence or the property ownership has changed.) Participants whose income eligibility could not be determined will receive a notice saying that to retain Enhanced STAR, they must furnish proof of their income eligibility to the assessor by the applicable taxable status date. Participants found not to be income eligible will be sent a notice of denial, giving the match results as a reason for denial.

The new law also reiterates that when an Enhanced STAR recipient who is not in the IVP fails to reapply for the exemption, the exemption should be replaced with a Basic exemption, rather than removed altogether.

---

#### School Age Children; Purpose of Relocation

Chapter **72** modifies the law pertaining to school districts which offer the Senior Citizens Exemption and/or the Exemption for Persons with Disabilities and Limited Incomes (RPTL, §§459, 467), and which choose to make the exemption(s) available to a parcel that serves as the residence of a child who attends public school (grades K-12). In such cases, the school district resolution must “condition such exemption upon satisfactory proof that the child was not brought into the residence in whole or in substantial part for the purpose of attending a particular school within the [school] district.” The ORPS application forms for these exemptions will be revised to require applicants in these circumstances to make a statement to that effect. It should be understood that neither exemption is available to properties in which such children reside unless the school district has explicitly acted to make it available to them.

#### Fire/Ambulance Volunteers in Certain Counties

A series of new enactments collectively provide that in seven counties – Jefferson, Montgomery, Onondaga, Orange, St. Lawrence, Saratoga, and Sullivan (Chapters **208, 244, 419,**

74, 208, 712 and 189, respectively), the county and any city, village, or town therein may adopt a local law, ordinance or resolution providing a partial real property tax exemption for members of incorporated volunteer fire companies, fire departments and incorporated volunteer ambulance services [hereinafter “volunteer companies”]. In Montgomery, Onondaga, Orange, and Sullivan Counties, the exemption may also extend to school taxes if the school district adopts a resolution so providing. In Jefferson and St. Lawrence Counties, the exemption ostensibly extends to school district taxes as well, though there is no explicit provision for school district action. In Montgomery and Sullivan Counties, fire districts may also opt to offer the exemption (elsewhere, if the town board adopts the exemption, it applies for town fire district purposes).

The exemption, available only to enrolled members and their spouses, equals 10 percent of assessed value, but not to exceed \$3,000 times the latest State equalization rate (except in Montgomery County, where the \$3,000 cap does not apply), and applies to taxes and special ad valorem levies, but not special assessments. In addition:

1. the applicant must reside in the city, town or village served by the volunteer company,
2. the exemption is limited to the applicant’s primary residence,
3. only the residential portion of the property may receive the exemption, and
4. the applicant must be certified by the authority having jurisdiction over the volunteer company as having been a member for at least five years.

At further local option, the municipality may grant a lifetime exemption to members who have provided over 20 years of volunteer company service. For each county, ORPS must promulgate the exemption applications. The exemptions first apply to 2006 rolls.

It bears mention that at the beginning of 2005, similar legislation was already in place for 19 other counties, namely, Cattaraugus, Chautauqua, Columbia, Dutchess, Erie, Lewis, Nassau, Niagara, Oneida, Orleans, Oswego, Rockland, Putnam, Schenectady, Schoharie, Steuben, Suffolk, Westchester and Wyoming counties (RPTL, §§466-a *et seq.*). Thus, these new laws bring to 26 the total number of counties in which this type of exemption may be offered.

It also bears mention that Chapter 324 gives an additional option to municipalities in those 19 counties with exemptions that were in place at the beginning of 2005 (identified above). These municipalities may now amend local laws or ordinances, or adopt local laws, ordinances, or resolutions, to permit continuation of the exemption to the un-remarried spouse of a deceased volunteer firefighter or ambulance worker who is killed in the line of duty.

---

#### Retroactive Exemptions for Specific Properties

In a number of assessing units, the assessor has been authorized to accept an exemption application after taxable status date for a parcel owned by a named nonprofit or governmental entity. In most cases, the entity acquired the property after taxable status date, though in some cases, the entity had title but simply failed to apply by taxable status date. The affected assessing units and property owners are identified in the 2005 ORPS Legislative Status Chart, below.

## MISCELLANEOUS

### Responses to FOIL Requests

Chapter **22** amends the Freedom of Information Law (Public Officers Law, Article 6) in relation to the timing of State and local agency responses to requests for records. It requires that when the receipt of a FOIL request is simply acknowledged, and the acknowledgement letter sets forth the date on which such request will be granted or denied, that date must be “reasonable under the circumstances of the request.” If an agency intends to grant a request but cannot disclose the record within 20 business days of the receipt of the request, it would need to state, in writing, both the reason for its inability to grant the request within the 20 days and “a date certain” (again within a reasonable period, based on the circumstances) when the request will be so granted.

An agency’s failure to comply with these requirements would constitute a denial of the request, triggering the right of the requestor to receive administrative review. Similarly, when a person denied access to a record files an appeal with the agency, the agency’s failure to respond as required by law would constitute a denial, entitling the requestor to seek judicial review.

Upon signing this legislation, Governor Pataki issued an Approval Message (#1), a copy of which appears below.

## TAX COLLECTION AND ENFORCEMENT

### Exemption Information on Tax Bills

As noted above, Chapter **256** primarily expands local options in connection with the alternative veterans exemption, but it also requires additional information to appear on property tax bills when an exemption has been granted. Under pre-existing law, each tax bill must display the assessed value of any exemptions applied to the parcel (RPTL, §922(1)(a)(iii)). This requirement remains in effect, but effective in 2007, each tax bill will also be required to display the full value which each such exemption represents. This change applies to all exemptions, not just the alternative veterans exemption, and applies to tax bills pertaining to fiscal years beginning on or after January 1, 2007.

---

### Brownfields; Waivers of Interest on Unpaid Taxes

Chapters **219** and **221** amend the Real Property Tax Law and the Environmental Conservation Law to authorize the governing body of any tax district to adopt a resolution permitting the waiver of interest, penalties and other charges upon unpaid taxes when the property in question is subject to a brownfield site clean-up agreement by a volunteer pursuant to section 27-1409 of the ECL. Any such waiver could be revoked if the property fails to receive a certificate of completion under ECL section 27-1419, or if the certificate is revoked.

The authority to grant such waivers would be conferred “Notwithstanding the provisions of sections [924, 924-a and 1182 of the Real Property Tax Law].” Sections 924 and 924-a of the RPTL govern the circumstances and the rate at which interest is imposed upon unpaid taxes, except those in jurisdictions which are subject to a special or local law to the contrary. Section 1182 of the RPTL allows certain tax districts (namely, those which enforce delinquent taxes pursuant to Article 11 of the RPTL) to waive interest and penalties on delinquent taxes where doing so is found to be in the best interests of the tax district.

---

### Notices of Pendency

Chapter 387 allows a “successive” Notice of Pendency to be filed in a “foreclosure action” if a previously-filed Notice of Pendency has lapsed (new CPLR §6516). In this context, a “foreclosure action” essentially means any action or proceeding in which a Notice of Pendency is required to be filed by §1331 of the Real Property Actions and Proceedings Law (which applies to mortgage foreclosures) or by a similar law.

For tax districts which enforce delinquent taxes pursuant to Article 11 of the RPTL, Chapter 387 appears to be of limited significance, since there is no requirement that a Notice of Pendency be filed under Article 11. Rather, a List of Delinquent Taxes is filed, which has the “same force and effect” as a Notice of Pendency (RPTL, §1122(7)). Indeed, new CPLR §6516(d), as added by Chapter 387, specifies that this new law shall not be construed as requiring the filing of Notices of Pendency in Article 11 proceedings (and also suggests that the filing of a “successive” List of Delinquent Taxes may be authorized therein, presumably when it is necessary to keep a previously-filed List active for more than three years).

However, for tax districts which enforce delinquent taxes pursuant to a local act which invokes RPAPL §1331 or otherwise requires the actual filing of Notices of Pendency, Chapter 387 permits Enforcing Officers to file “successive” Notices of Pendency to ensure that the constructive notice achieved by the filing of the original Notice remains in effect.

### Bankruptcy Reform

Federal legislation, **Public Law 109-8**, enacted the “Bankruptcy Abuse Prevention and Consumer Protection Act of 2005,” substantially amending the federal Bankruptcy Code (Title 11, United States Code) effective October 17, 2005. While the main purpose of the legislation was to curtail perceived abuses of the bankruptcy laws, some of its provisions bear directly upon the interplay between bankruptcy and property tax enforcement. A detailed analysis is beyond the scope of this publication, but a general description of some of its features is as follows:

- *Assessment challenges:* Precludes challenging a real property tax assessment in bankruptcy court when the period for challenging the assessment under applicable nonbankruptcy law has expired (11 U.S.C. §505(a)(2)(C)).
- *Priority status:* Specifies that property taxes, whether secured or unsecured, are entitled to be allowed as an administrative expense (unless they are unsecured and

relegated to eighth priority under 11 U.S.C. §507(a)(8)(B)); provides that a governmental unit need not file a request for payment in connection with such expenses (11 U.S.C. §503(b)(1)(B)(i),(D)). Note, however, that the status of administrative expenses has been changed from first priority to second priority, behind certain domestic support obligations (11 U.S.C. §507(a)(2)).

- *Interest rate:* Requires interest on unpaid real property taxes to accrue at the rate prescribed by applicable nonbankruptcy law (*e.g.*, RPTL §924-a), rather than being determined by the court on a case-by-case basis (11 U.S.C §511).
- *Automatic stay:* Enables creditors to furnish their preferred addresses for notice purposes; gives such creditors protection from monetary penalties if they violate an automatic stay before receiving effective notice thereof (11 U.S.C. §342(c)(2)(A),(f),(g)). Curtails the automatic stay where there have been repeated filings by the debtor (11 U.S.C. §362(c)(3),(4); (d)(4)). Continues to allow the creation and perfection (but not enforcement) of a lien for property taxes; extends the same treatment to a “special tax or special assessment,” whether or not *ad valorem* in nature (11 U.S.C. §362(b)(18)).
- *Miscellaneous payment issues:* Explicitly empowers trustees to recover property taxes from the property (11 U.S.C. §506(b),(c)). Restricts the subordination of property tax liens in Chapter 7 cases (11 U.S.C. §724(b)). Provides for property taxes to be paid in regular installments, rather than on a deferred basis, in Chapter 11 plans (11 U.S.C. §1129(a)(9)(C),(D)). Directs those conducting a business under court authority to pay the taxes by the due date set by nonbankruptcy law, unless the bankruptcy trustee has abandoned the property or another exception applies (28 U.S.C. §960(b)).

### C. GOVERNOR'S APPROVAL MESSAGES

The Governor issued two Approval Messages of interest in 2005, one relating to FOIL requests (Chapter 22, Memo # 1) and the other relating to Fulton County 2005 tentative assessment rolls (Chapter 177, Memo #2). A copy of each follows. No Disapproval Messages were issued on any 2005 bills directly impacting real property tax administration.

#### **APPROVAL MEMORANDUM No. 1 Chapter 22**

MEMORANDUM filed with Assembly Bill Number 6714, entitled:

"AN ACT to amend the public officers law, in relation to the date when requests for records under the freedom of information law shall be granted"

APPROVED

The bill amends the Freedom of Information Law (FOIL) to provide statutory guidance for State and local agencies in responding to FOIL requests. First, the bill codifies current decisional law that states that if an entity covered by FOIL provides a requestor with an approximate date as to when it will grant or deny a FOIL request, such date shall be reasonable under the circumstances. Second, where an agency determines to grant a FOIL request, in whole or in part, within 20 days from the date of the written acknowledgement and circumstances prevent the disclosure of the record or records within such period, the bill requires an agency to state in writing both the reason for the inability to disclose within 20 days and a date certain when the FOIL request will be granted, which must be reasonable under the circumstances. Third, the failure of an agency to comply with any of the new provisions will be deemed a denial of the FOIL request and permit the requestor to appeal. Finally, the bill also codifies current case law that maintains that an agency's failure to determine an appeal within 10 business days of receipt, as it is currently required to do, constitutes a constructive denial of a request. The bill takes effect immediately.

By codifying current case law, the bill will provide necessary clarity and guidance both to persons making FOIL requests and to the governmental entities responsible for maintaining public records. This will make the process of obtaining responsive documents more efficient and, ultimately, result in a more open and accountable government. In addition, the new provision ensuring that records are timely disclosed after an agency determines to grant a FOIL request will prevent unjustified delays in turning over material that FOIL requires to be disclosed to the public. I am advised that, in the past, there have been situations where a governmental entity has acknowledged having responsive records but delayed disclosure of such records. It should be noted that this new provision would not affect situations where an agency provides an approximate date for processing the FOIL request that is reasonable under the circumstances and is beyond 20 days from the acknowledgment of receipt of the request.

While I commend the sponsors, the New York Newspapers Publishers Association and other interested parties for advancing and supporting legislation that will help make State and local agencies more open and accountable, I am concerned that the bill does not go far enough. The State Legislature has inexplicably made these important reforms inapplicable to FOIL requests that it receives. I see no basis for exempting the Legislature from the obligation to timely process FOIL requests, particularly in light of the far more limited FOIL to which the Legislature has made itself subject. My staff and I stand ready to work with the Legislature to remedy this anomaly and subject the State Legislature to the same FOIL provisions as all other State and local agencies. Nonetheless, I am pleased to approve this important legislation that will make State and local governments more open and responsive to our citizens.

The bill is approved.

**APPROVAL MEMORANDUM No. 2 Chapter 177**

MEMORANDUM filed with Senate Bill Number 5720-A, entitled:

"AN ACT to authorize an extension of time to file a tentative assessment roll in certain towns"

APPROVED

This bill would provide that notwithstanding any general, special, or local law to the contrary, towns that are within a county having a population of between 54,000 and 56,000 may adopt a local law or resolution postponing the filing of the tentative assessment roll to a date no later than July 31, 2005 and canceling any previously filed tentative assessment roll for 2005. A copy of such local law or resolution must be filed with the State Board of Real Property Services. The governing body must also, by local law or resolution, establish a specific date by which the assessor shall be required to file a tentative assessment roll. Only Fulton County meets the population criteria described by the bill. The bill would take effect immediately and be deemed to have been in full force and effect on and after March 1, 2005.

According to the sponsors, this bill is necessary because of a confluence of factors has resulted in irregularities and inequities in assessments in two or more towns in Fulton County. For this important reason, I must approve this bill to give local governments the opportunity to address these issues. However, both the Office of Real Property Services and the Division of the Budget have expressed concerns that any re-assessments might be undertaken in order to avoid shifts in real property tax burdens among taxpayers. It is the assessor's duty under State law to fairly apportion the share of each property owner's tax liability. In approving this bill, it is not my intention to support anything but the fairest and most accurate property assessments.

The bill is approved.

(signed) GEORGE E. PATAKI
