Introduction

Legislative History

Chapter 60 of the Laws of 2004 created the Empire State film production credit to promote film and television production in New York State. The credit is available under Article 9-A, the Franchise Tax on Business Corporations, and Article 22, the Personal Income Tax. The credit is administered by the Governor's Office for Motion Picture and Television Development (MP/TV).

As enacted, the credit was limited to \$25 million annually and was scheduled to expire on August 20, 2008. The credit has since been amended numerous times.

Chapters 61 and 62 of the Laws of 2006 increased the annual credit cap to \$60 million and extended the sunset through December 31, 2011.

Chapter 57 of the Laws of 2008 made several significant changes to the program. It increased the credit rate from 10 percent to 30 percent of qualified production costs. It also shortened the credit refund period from 50 percent over two years to 100 percent in one year. Finally, the total amount of credit that can be awarded was increased from \$60 million annually in 2008 through 2011 to \$65 million in 2008, \$75 million in 2009, \$85 million in 2010, \$90 million in 2011 and 2012, and \$110 million in 2013.

Chapter 57 of the Laws of 2009 authorized an additional \$350 million allocation for 2009. It also required the use of the credit to be spread across several years, depending on the size of the credit.

Chapter 57 of the Laws of 2010 allocated an additional \$2.1 billion in film credit - \$420 million issued annually in 2010 through 2014. Taxpayers awarded credit from these allocations will claim credit in the later of the year the production is completed or the tax year immediately following their allocation year.

Chapter 57 of the Laws of 2010 also made the following changes to the eligibility rules and credit administration:

Adds "qualified independent film production company" as an entity eligible for credit;

Requires at least 10 percent of total principal photography shooting days to be spent at a qualified film production facility (not applicable to independent film companies or pilots);

Requires inclusion of promotional materials in each film distributed by DVD or other media to the secondary market or inclusion of "Filmed with the support of the New York State Governor's Office of Motion Picture and Television Development" in the end credits; Requires credit applicants to certify that they will only purchase tangible property and services that are qualified production costs from registered New York State sales tax vendors; Requires 75 percent or more of total production costs to be attributable to property or services in New York State in order for post production costs to qualify for film credit; Amends the definition of qualified film production facility to add minimum square footage, heating and cooling, soundproofing, electrical service, and space requirements for facilities located in New York City (not applicable to independent film companies); and Excludes armories in New York City as qualified facilities unless MP/TV determines no other qualified facility was available at the time of shooting (not applicable to independent film companies).

Credit Eligibility and Calculation

A taxpayer that is a qualified film production company subject to tax under Articles 9-A or 22 can apply to MP/TV to receive the refundable, Empire State film production credit. Productions that qualify for the credit are feature length films or television films, pilots, or series. Documentaries, news or current affairs programs, interview or talk shows, instructional videos, sport shows or events, daytime soap operas, reality programs, commercials, and music videos do not qualify for the credit.

To become a qualified production company, at least 75 percent of film production facility expenditures (excluding post production costs) must be spent at a qualified film production facility and at least 10 percent of total principal photography shooting days must be spent at the qualified facility. The latter requirement does not apply to pilots or independent films.

If a production has met the 75 percent test for production facility expenditures, it may also qualify for the tax credit based upon qualified expenditures outside the qualified facility that are related to pre-production, location production, and post production in New York in one of two possible ways:

1) if the qualified New York expenditures related to the qualified production facility total \$3 million or more, then all qualified expenditures related to pre-production, location, and post production in New York State qualify for the credit;

2) if expenditures at the qualified production facility are less than \$3 million, the production must shoot at least 75 percent of all its location days in New York State in order to include expenditures incurred in New York State outside the qualified production facility on pre-production, production, and post production. The 75 percent threshold applies to a percent of the total location days only, not to the total shoot days. Shooting days spent at facilities are not used to calculate this threshold; the test is the ratio of shooting days spent on locations anywhere in New York State compared to shooting days on locations outside of New York State.

Key Definitions

Taxpayers meeting the tests above can qualify for a refundable credit equal to 30 percent of qualified production costs. Below are some definitions of key criteria in the film credit statute.

Qualified independent film production company

Qualified independent film companies are exempted from certain eligibility and participation requirements, such as the 10 percent shooting day test or the types of facilities used for production. To qualify under this designation, a film production company must:

have a maximum budget of \$15 million; control the film during production; and not be a publicly-traded entity, or have no more than five percent

Qualified film production facility

A qualified film production facility must contain at least one sound stage having at least 7,000 square feet of contiguous production space.

A facility in New York City must also:

be soundproof with a noise criteria of 30 or better;

have sufficient heating and air conditioning for shooting without the need for supplemental units;

incorporate a permanent grid and sufficient electrical service for shooting without the need for generators; and

be column-free with a height of at least 16 feet under the grid.

An armory in New York City that does not meet the above requirements may be considered a qualified facility if MP/TV certifies that no qualified facility was available at the time of shooting.

Finally, independent film production companies are not subject to these New York City-specific space requirements.

Qualified production costs

Qualified production costs are costs for tangible property or services used or performed within New York directly and predominantly in the production (including pre and post production) of a qualified film. However, in order for post production costs to qualify, 75 percent of all post production costs must be incurred in New York State.

Qualified production costs generally include most below the line items such as costs of technical and crew production, expenditures for facilities, props, makeup, wardrobe, set construction, and background talent, and exclude costs of stories and scripts, and wages for writers, directors, producers, and performers (other than extras without spoken lines).

Above the line and below the line are terms of art in the film and television industry referring to divisions of categories or types of spending on the budget form. Above the line typically means fees and salaries for the creative team (director, producers, actors, writers) and the cost of purchase of the story and/or script, while below the line refers to all the other the "hard" costs of production (crew salaries, equipment and facilities rental, film and lab costs, construction, materials, props, makeup, wardrobe, locations, editing, and catering -- essentially everything else involved in production of the film).

Credit Application and Allocation

The Governor's Office for Motion Picture and Television Development issues credits up to the amount of the annual aggregate credit allocation authorized by law for a particular year. The credit is offered on a first come, first serve basis. Applicants "rollover" or move into the next year's funding cycle if the credit limit is reached. Applications for the credit must be submitted to MP/TV not more than 180 days prior to the start of principal and ongoing photography.

To apply for the credit, a production company must first submit an initial application that leads to conditional approval of the project. Applicants provide data, such as the type of production, production schedule, and location information, and projected expenditures that help MP/TV determine if a given production is eligible and qualified to participate in some aspect of the tax incentive program. Projections are provided for items such as estimated total budget, expenditures at a qualifying production facility, estimates of shooting days and expenditures in New York, and estimates of shooting days and expenditures outside of New York.

After reviewing the information provided in the initial application, MP/TV makes a preliminary determination whether to certify the applicant for conditional eligibility in the program.

After the production is complete, the applicant submits a final application to MP/TV detailing actual expenditures both within and without New York demonstrating that the required thresholds were met, as well as additional supporting data, such as a payroll expenditure report, a complete cast and crew list, and daily production reports. Based on a review of these documents¹, MP/TV determines the amount of credit earned by the applicant and provides a tax credit certificate specifying the amount of tax credit allocated.

The applicant includes this credit allocation certificate with its tax return for the year in which the credit is allowed. Initially, the credit was allowed in the tax year the production was completed. However, taxpayers awarded credit from the \$350 million allocation in 2009 or one of the five \$420 million allocation that comprise the \$2.1 billion total credit allocation must claim credit in the later of the tax year the production is completed or the year following the credit allocation year.

The credit is applied to the New York State tax liability of the applicant that owns or controls the applicable qualified film. If the taxpayer uses the credit to extinguish its tax liability but still has credit remaining, it may request the excess credit as a refund. Credit utilization is explained in the following table:

If the amount of the credit is:	it is claimed:
under \$1 million	entirely in the allowable credit year
at least \$1 million but less than \$5 million	over a two year period, with half claimed each year
at least \$5 million	over a three year period, with one-third claimed each year.

¹Forms and instructions are available on MP/TV's Web site: http://www.nylovesfilm.com/tax/

Legislative Mandate

Section 8 of Part P of Chapter 60 of the Laws of 2004 requires the Commissioner of Taxation and Finance, in conjunction with the Director of the Governor's Office for Motion Picture and Television Development, to issue an annual report evaluating the effectiveness of the tax credit in stimulating the growth of the film industry in the State. The report is prepared by the Office of Tax Policy Analysis (OTPA) and MP/TV using data from applications filed with MP/TV for allocation of film production credits. The legislative mandate follows:

The commissioner of the department of taxation and finance, in conjunction with the director of the governor's office for motion picture and television development, shall submit to the governor, the temporary president of the senate, and the speaker of the assembly, an annual report to be submitted in February of each year evaluating the effectiveness of the film production tax credit provided by this act in stimulating the growth of the film industry in the state. Such report shall include, but not be limited to, in total and by qualified film, the number of qualified films, the qualified production costs, the production costs, the qualified film production facilities, and the credit amounts claimed by each qualified film, as well as the impact on employment and the economy of the state and city of New York. Such report shall be based on data available from the application filed with the governor's office for motion picture and television development for allocation of film production credits. Notwithstanding any provision of law to the contrary, the information contained in the report shall be public information. The report may also include any recommendations for changes in the calculation or administration of the credit, and any other recommendation of the commissioner regarding continuing modification, or repeal of such act, and such other information regarding the act as the commissioner may feel useful and appropriate.

Statistical Data

Data Considerations

The following tables present information for taxpayers claiming the Empire State film production credit from the 2004 through 2013 allocation pools. The source of the data is forms and applications filed with the Office of Motion Picture and Television Development (MP/TV). MP/TV analyzes the submitted materials and determines the amount of credit for which each applicant is eligible. To protect proprietary and sensitive information, productions are identified by a project number instead of by name.

The credit amounts are the amounts approved by MP/TV after their review and adjustments for disallowed costs. MP/TV issues a certificate to the applicant stating the amount of credit it may claim on its tax return. The credit amounts reported here are amounts calculated by MP/TV and issued on the certificate.

These data are not tax data. They do not reflect amounts actually used to reduce liability or requested as a refund. Such information will appear on tax returns that will not be final and verified for several years due to taxpayer extensions and varying fiscal years.

2007 is the most recent tax year for which there is final data for both Personal Income and Corporate Franchise Taxes. According to tax returns filed with the Tax Department, taxpayers used and refunded a total of \$67.2 million in credit in 2007. This is an increase from \$42.6 million in 2006. Amounts reported on tax returns are subject to Tax Department audit and adjustment for three years after the filing date.

The legislative mandate requires an evaluation of the effectiveness of the tax credit in stimulating the growth of the film industry in the state. The MP/TV tables present data on project spending, employment², and shooting days as one way of measuring the performance of the credit and illustrating its economic impact. These measures are consistent with the mandate's requirement that the report be based on data from credit applications filed with MP/TV.

²Employment figures include all individuals who worked directly on the production, regardless of duration or function. Therefore, they would include individuals employed part-time, extras, and above-the-line talent. Above-the-line costs do not qualify for the credit, however.

Description of Tables	Year	The year of the allocation pool from which the production was awarded credit
	Total Qualified Costs	The total of all costs approved as qualified by MP/TV for the tax credit after review and revision of the Form E submitted
	Credit Amount	The amount of the tax credit ultimately approved as credit by MP/TV after review and revision of final application
	Cumulative Total Credit	The cumulative total of all tax credits approved by MP/TV; this is essential for monitoring the status of the credit relative to the aggregate cap
	Total Production Hires	The total of all employees who worked on the production in New York State as listed on Form D: Section 5-2-a
	Stage Days NYC	Days cameras roll on principal photography at a qualified production facility located within the five boroughs of New York City
	Stage Days NYS	Days cameras roll on principal photography at a qualified production facility located within New York State but <i>outside</i> New York City
	Stage Days Outside NYS	Days cameras roll on principal photography at a production facility located outside New York State
	Total Stage Days	Total of all days cameras roll on principal photography at a production facility anywhere
	Location Days NYC	Days cameras roll on principal photography within the five boroughs of New York City <i>not</i> at a qualified production facility

Location Days

NYS

Days cameras roll on principal photography within New York State *outside* New York City and *not* at a

qualified production facility

Total Location

SO MANY REASONS TO FILM IN NEW YORK STATE

2010 Report to the Legislature

This section is authored by the Governor's Office for Motion Picture and Television Development Pat Swinney Kaufman, Executive Director

Introduction

The Governor's Office for Motion Picture and Television Development (MP/TV) manages the Empire State film production credit. Created in 2004 to increase the economic activity of the film and television industry, a historically powerful economic sector for New York State, the program has been challenged by robust incentive programs offered by other states and regions. The state increased the tax credit from 10 percent to 30 percent in April 2008 to compete with enhanced benefits offered by neighboring states, then further increased the program's annual funding to \$420 million per year for five years in August of 2010. This report details the program's activity in calendar year 2010.

Program Results for Calendar Year 2010

Once again funding for the program appeared to be depleted by late January of 2010. As a result, the state experienced a drop in projects applying to the program during the first two quarters of the year. However once the budget passed in August of 2010, a rush of project applications were approved. MP/TV received 93 applications during 2010, estimated to generate \$1.44 billion in direct production spending in New York. This \$1.44 billion will generate approximately \$300 million in tax credits on qualified expenditures. This reflects a benefit (direct spending by projects) to cost (tax credits paid) ratio of 4.9:1.

The 93 applications break out as:

73 feature films, with an estimated New York spend of \$854 million

14 television series, with an estimated New York spend of \$565 million

6 pilots, with an estimated New York spend of \$25 million

Credits are claimed generally two years after production begins. Thus productions are hiring actors and crew, engaging New York infrastructure, and supporting businesses as much as two or three years before collecting on the credit.

Sufficient Funding for Multiple Years

It has been clearly demonstrated that when funded at an adequate level New York is extremely successful in attracting production.

The budget enacted in April 2009 provided \$350 million for one fiscal year. However, no funding was provided for the subsequent years.

The \$350 million was fully committed within nine months (April 23, 2009 to January 20, 2010.) As a result, for most of the first two quarters of calendar year 2010, the program had no funds to commit and major projects were lost to other states. However during this time some applications continued to be submitted and were reviewed in accordance with standard procedures. These applicants were advised as to the state of funding and placed in a wait list queue in the event that funding was allocated. Once the budget was passed in the late summer of 2010, the projects on the waitlist were admitted into the program in the order in which they had applied. In the interim, however, many projects which could not wait and/or were unwilling to gamble on the uncertainty of a positive outcome simply went elsewhere. The most damaging loss came at the expense of pilot season. Pilots are critical because they lead to television series, one of the largest and most stable sources of employment and economic benefit to New York.

For any number of reasons – they run their creative course, key cast members leave, etc. – several television series are cancelled each year. Without a strong annual showing of pilots, New York cannot replenish its supply of television series. In addition, series, with their potential for multi-year commitments for hit shows, are much less likely to locate where there is uncertainty about the future of a competitive tax credit program; producers need to know from the start the credit will be there two, three, or four or more years out.

The bulk of pilots are contracted and shot in February and March. In 2008, when the credit was fully funded, 20 pilots shot in New York. In 2009, however, only four pilots managed to apply before the funding was exhausted. In 2010, when we had again run out of funding while waiting for a new budget to pass, only two pilots were produced, both in early January, before the old funding ran out. Then, in the fall, after the budget was passed in August, pilot production resumed and four more pilots were produced. Most significantly, since the budget passed in August 2010 actually providing strong multiyear funding for five years, New York State experienced an unusually powerful pilot season for 2011 that led to a record breaking number of New York-based series productions moving into the third quarter of 2011. Over the course of the following twelve months (September 2010 through August 2011), New York hosted a resurgent 19 pilots which led to seven new series in addition to

16 returning series from the previous season. That brings the grand total of series for 2010/11 to 23, with more pilot and series applications still coming in.

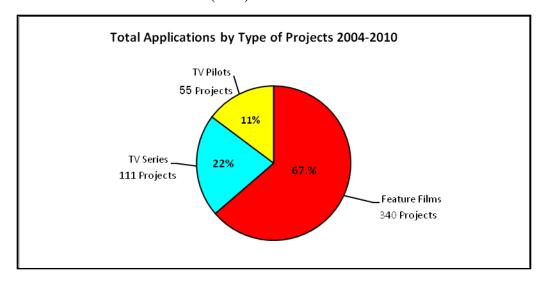

Program
Statistics for
the Life of the
Program:
August 2004 December
2010

The program received 506 initial applications between August 2004 and December 2010. The following data are based on the information supplied in those 506 initial applications received by the Governor's Office for Motion Picture and Television Development.

Initial Applications To be accepted into the program, an applicant must submit an initial application prior to the start of principal photography projecting the economic activity (including proposed job counts and direct spending in New York) of the project. After a careful review and a personal interview with the project's producers and production accountant, applications that meet program requirements are issued a certificate of conditional eligibility. Once the project is finished and a final application based on dollars actually spent and documented is submitted, the certificate of tax credit is issued. The dollar value of credit given to a project is based on actual qualifying spending.

The 506 projects accrued in the life of the program consist of:

340 Feature Films (67%) 111 Television Series (22%) 55 Television Pilots (11%)

Project Spending

Project spending is measured in two ways:

- 1. NY Spend all money spent on a project in New York State on both qualified and non-qualified costs
- 2. <u>Qualified Spend</u> money spent in New York State on costs qualified for the credit such as labor, materials, facilities, post production, etc.

While the actual relationship between Qualified and Total NY Spend can vary, Qualified Spend averages about 65% of total NY Spend.

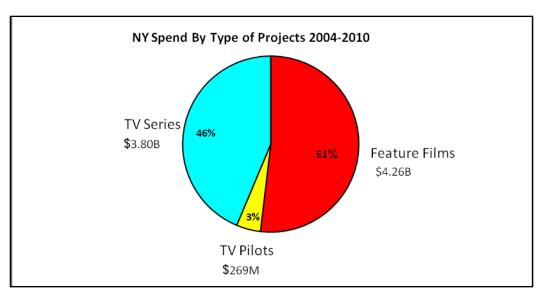

The 506 projects in the program through 2010 represent a projected \$8.3 billion in NY Spend and \$5.4 billion in Qualified Spend.

NY Spend

Although the number of film applications exceeds the combined number of TV series and TV pilot applications, the total NY Spend generated by the combination of TV series plus TV pilots has remained fairly equal to the NY spend generated by feature films during the life of the program.

The 506 projects divided by type have or will generate NY Spend of \$8.3 billion, as follows:

Feature Films: \$4.26 billion Television Series: \$3.80 billion Television Pilots: \$269 million

Attracting a balance of film and television series and pilots provides a solid base of year round work, thus avoiding seasonal fluctuations. As a result production is more likely to keep New York's facilities and vendors busy and the work force employed year round.

Tax Credit Certificates Issued During calendar year 2010, 85 final applications were submitted. By the end of the year 82 applications had been processed and tax credit certificates were issued in the amount of \$233,540,825. This brings the total amount of tax credits awarded during the life of the program to \$596,620,381 and the number of tax credit certificates issued to 347.

Conclusion

New York State's film production credit continues to create thousands of jobs and close to \$2 billion dollars annually in direct economic activity for the state. The significance of offering a fully funded five year program is manifested in the robust growth in production in 2010 and 2011. For the past three years, the funding for the program was exhausted by midyear leaving the industry, in particular pilots and television series, very uncertain regarding the consistency of the incentive program and sustainability of projects hoping to get into the program. The decision to fully fund the program for five years had an immediate impact as the number of pilots and new television series jumped dramatically once the five year funding was in place. Comparing just the first two quarters of 2010 to the first two quarters of 2011 illustrates how robust the program is as of 2011:

2010 versus 2011

	Applica	tions (Q	1 & Q2)		Full and/or	
	Film	Pilots	Series	Total	NY Spend	Part Time Jobs
2010	29	2	7	38	\$644 million	33,809
2011	54	15	16	85	\$1.16 billion	44,951

It is also important to note that the level of funding now in place is proving to be sufficient to meet the current level of demand. Based on the first 12 months of initial applications received after the budget passed in August 2010, the allocation of \$420 million per year appears to match the amount of credit estimated by these initial applications. From August 2010 to August 2011 we received 138 applications that expect to claim a projected \$420 million in credits.

Film Infrastructure Development

In addition, the film production incentive not only generates more film and television production for New York, it also encourages the continued growth of New York's infrastructure.

Soundstage facility development continues to be robust. For example:

Kaufman Astoria Studios recently opened its new \$22 million Stage

K and hosted films such as Smurfs and Men In Black III

Steiner Studios is building five additional stages and is about to convert a 236,000 square foot building to support and production office space

Broadway Stages is building eight new stages scheduled to be complete in 2012/13

Silvercup Studios continues to work on its plan to expand on the banks of East River

Gold Coast Stages in Bethpage has just added another five stages in the former Grumman plant.

Yonkers Stages has added two additional stages.

These expansions are a direct result of the confidence generated by New York State's multi-year fully funded incentive program. Furthermore, post production facilities are expanding their footprints and workforces as well. Deluxe, Company 3, and Technicolor are just three of the major facilities rapidly expanding their presence in New York.

Appendix A: Sample Credit Certificate

New York State Empire State Film Production Credit

<u>Certifi</u>	cate of Tax Credit
Production Name:	
Applicant:	Taxpayer ID:
Applicant address:	
Partners/Shareholders:	ر المال الم
Completion Year:	
Amount of credit:	

This certifies that the Final Application filed on behalf of this production for participation in the New York State Empire State Film Production Credit program has been approved. The taxpayer has met the criteria for eligibility under NY State Tax Law Sections 24 and 210.36 and the Regulations governing this program.

The credit shall be allowed for the taxable year in which the production of the qualified

film is completed. The year of completion of production is indicated above.

This certificate must be used in conjunction with New York State tax forms CT-248 (Corporate Taxpayers) or IT-248 (Individual Taxpayers).* No credit will be allowed without the certificate.

·

^{*}Partnerships and LLC's treated as partnerships must attach a copy of this certificate to their NYS partnership return. Subchapter S corporations must attach a copy to their NYS S corporation return. Individual partners, members of the LLCs and S corporation shareholders must attach a copy with their NYS personal income tax returns. Corporations must attach a copy to their NYS corporate return.

Appendix B: New York State Qualified Production Facilities

New York State Qualified Production Facilities

NY City vs NY State Qualified Production Facilities

Within the five boroughs of NY City ONLY, Qualified Production Facilities (QPF) are divided into two types: Level 1 and Level 2 facilities.

OUTSIDE NY City, there is no distinction between facilities, all QPFs outside NY City can be used by either Level 1 or Level 2 productions.

A Level 2 production filming their stage work in NY City MUST use a Level 2 QPF to meet their facility threshold requirements.

A Level 1 production may use ANY QPF, either a Level 1 or Level 2 within NY City, or any QPF outside the City

Any production, whether Level 1 OR Level 2, shooting on a stage OUTSIDE NY City, can use ANY NY State QPF to fulfill its facility threshold requirements.

For Instructions, forms and further information on the **New York State Film Production Credit** program go to http://www.nylovesfilm.com/tax/ or call (212) 803-2330.

ARMORIES IN NY CITY

NOTE: ARMORIES as LEVEL 2 Qualified Production Facilities: An armory owned by the state or city of New York located in the City of New York, is considered a **Level 1 Qualified Production Facility**, and may be used by any Level 1 production to meet the Level 1 Facility Threshold requirements.

OUTSIDE the city of New York, where there is no distinction between Level 1 and Level 2 facilities, an armory is considered a QPF and any production, whether it is a Level 1 or Level 2 production, may use an armory in the state but outside the city to meet the Facility Threshold requirements.

WITHIN NY CITY ONLY, however, a state or city armory may NOT be considered a Level 2 QPF suitable for meeting Level 2 Facility Threshold requirements EXCEPT upon certification by the Governor's Office for Motion Picture and Television Development of a petition submitted to the office by a qualified film production company establishing that no qualified Level 2 film production facility in the city of New York has stage space available that is appropriate for shooting such company's film.

For more information on how to petition for Level 2 certification of an armory, see the **NY State Film Production Credit: Instructions for Initial Application** (page 4) or call (212) 803-2330.

Gayle Carpenter, Facilities Lease Coordinator (518) 786-6079 Division of Military & Naval Affairs

330 Old Niskayuna Road Latham, NY 12110-2224

Properties within NYC include: (Call for additional armories within the city)

1579 Bedford Avenue Brooklyn, NY 11225

Marcy Armory app 60,000 SF

355 Marcy Avenue Brooklyn, NY

Kingsbridge Armory

Ronald Day (212) 312-3628 29 W. Kingsbridge Road Bronx, NY 10468

152,800 SF

ARMORIES IN NY STATE OUTSIDE NY CITY

As noted above, **OUTSIDE the city of New York**, an armory is considered a QPF and any production, whether it is a Level 1 or Level 2 production, may use an armory in the state but outside the city to meet the Facility Threshold requirements.

Gayle Carpenter, Facilities Lease Coordinator (518) 786-6079 Division of Military & Naval Affairs 330 Old Niskayuna Road Latham, NY 12110-2224 For more information concerning the data provided in this publication, please contact:
