Appendix	Effective 2	Dates of Major New York State Taxes	A-1
Glossary			1

Overview

This publication contains New York State and selected local tax collections for taxes administered by the Department of Taxation and Finance. These data are for the latest completed State fiscal year, covering the period April 1, 1994 through March 31, 1995 (SFY 94-95), and for selected prior fiscal years.

During SFY, 94-95 the Department of Taxation and Finance collected approximately \$32.7 billion in state taxes. Approximately \$17.6 billion was attributable to the state personal income tax. The state sales tax and franchise, income and gross receipt taxes imposed on businesses were other major revenue sources. The following chart depicts the share of total taxes contributed by these sources.

New York State Tax Collections: Fiscal Year 1994-1995

The publication is divided into seven sections containing 29 tables. Section I displays State taxes and fees by major tax group and aggregate tax burden data.

Sections II through VI provide detail and historical collections for each of the taxes summarized in Section I. Section VII contains both summary and detailed collection data for those local taxes administered by the Department and remitted to localities.

The Appendix shows the effective dates of major taxes. Finally, the Glossary provides an explanation and definitions for some of the less familiar terms used in this report.

Data users should refer to the annual Governor's *Executive Budget* prepared by the Division of the Budget, and *State of New York 1995-96 Tax Provisions* prepared by the Office of Tax Policy Analysis, for descriptive summaries of the taxes and recent legislation. This knowledge is important for understanding and interpreting tax collection trends.

a/ First year of collections from 1985 revised Bank Tax Law featuring reduced net income rate, new alternative tax computations and revised allocation provisions.

b/ Totals are actual; details by type of bank are estimated, due to identification considerations for current and prior periods.

c/ Increased collections reflect rate changes and a surcharge imposed in calendar year 1975.

d/ Increased collections reflect rate changes in calendar year 1971.

e/ Further increased collections reflect additional 1% increase (less credit for Sales Tax paid) for banks paying tax based on income. This increase derived from tax on income earned in both 1963 and 1969 calendar years.

f/ Increased collections reflect rate changes in calendar year 1968.

^{1/} Metric volumes of wine and liquor have been converted to U.S. gallons for comparison to beer volume. Taxable gallons include assessments which may not yet have been collected.

^{2/} Prior to 7/16/89 liquor with not more than 2% alcohol by volume was taxed at 55 cents per liter and included in the liquor not over 24% alcohol category.

^{3/} Tax collections may be affected by assessments, delinquencies, prepayments and refunds and do not necessarily agree with Table 1, nor with gallonage data. Differing rates during fiscal years 1990 and 1991 thus tend to distort volume-to-tax comparisons with other periods.

^{4/} Floor taxes reflect the application of the changed tax rate to inventories as of the effective date of the changed rate.

a/ Effective July 1, 1990, carriers subject to the highway use tax are also subject to a supplemental tax equal to the regular tax. Effective on the same date, the highway use tax is extended to carriers who use the New York Thruway. For the period beginning January 1, 1995 through January 1, 1996, the tax attributable to New York Thruway mileage is reduced by 50%.

^{*} Reflects permit renewal collections.

Glossary

	This section explains some of the technical terms used in this report's statistical tables.
Boxing and Wrestling Exhibitions Tax	A 5.5 percent tax is imposed on the gross receipts of boxing and wrestling exhibitions. Receipts from broadcast and motion picture rights are also subject to the tax. Since single events of high spectator interest strongly influence the size of the tax base, the yield of the tax varies considerably from year to year.
Cigarette Tax Commissions	Discounts provided to cigarette agents and dealers for affixing the state's stamp or meter impression on a package of cigarettes.
Compensating Use Tax	The tax imposed on tangible personal property and services used within the State on which a sales tax would have been due but was not paid.
Delinquencies	Collections on tax assessments issued for prior tax liability periods, plus remittances with returns filed for prior tax liability periods.
Electronic Fund Transfer Payment	Taxpayers liable for more than \$5 million of any of state and local sales and use taxes and prepaid sales and use taxes on motor fuel and diesel motor fuel, petroleum business taxes, or motor fuel taxes, are required to make payment of tax by electronic fund transfer or certified check. Taxpayers must pay 3/4 of the total liability for the comparable liability period of the preceding year, or the total liability for such taxes during the current period ending on the 22nd day of each month.
Final Payments	Taxpayer remittances with final returns to satisfy tax liabilities not met by pre-payments in the form of withholding tax or estimated tax for the current tax liability period.

Fiscal Year	State and local government financial accounting periods. The State's fiscal year extends from April 1 through March 31. New York City and Yonkers have fiscal years of July 1 through June 30. Most other cities and school districts have fiscal years extending from July 1 through June 30 or use the calendar year as their fiscal year.
Hazardous Waste Assessment	Special assessments levied on persons involved in the production or treatment of hazardous waste. The tax is based on the tonnage produced or treated.
Minor Offsets	Reductions made to individual income tax overpayments for taxpayers that have incurred liabilities and arrearages enforceable by other federal and State agencies. These include the Department of Social Services (past-due support payments), Higher Education Services Corporation (defaults on guaranteed student loans), State University of New York and City University of New York (defaults on national defense, national direct, health professions or nursing student loans), the Department of Taxation and Finance (outstanding liabilities for other taxes), and the Internal Revenue Service (outstanding federal liabilities).
Municipal Assistance Corporation for the City of New York (MAC)	A public entity created in 1975 to help New York City meet its fiscal obligations. MAC is authorized to impose a general sales and compensating use tax in lieu of a New York City sales tax.
Negotiated Settlements	Collections on settlements, litigation, administrative proceedings and related disputes between New York and the oil industry concerning corporate taxation of the industry prior to the adoption of Article 13-A (a gross receipts tax from July 1, 1983 through August 31, 1990). This legislation consolidated petroleum gross receipts taxes imposed by Article 9, Sections 182-a and 182-b of the Tax Law into a single tax. The new law also repealed the disputed unitary reporting requirements for oil companies.
New York City Alcoholic Beverage Taxes	The City imposes excise taxes of 12 cents per gallon on beer and 26.4 cents per liter on liquors over 24 percent alcohol. The tax is administered by the State Department of Taxation and Finance.

New York City Personal Income Tax

The City imposes a personal income tax on residents and an earnings tax on nonresidents earning wages or self-employment income in New York City. The residential income tax conforms to the State's definition of taxable income and has tax rates ranging from 2.2 percent to 3.4 percent. Two surcharges also apply. The first imposes an additional tax rate of a maximum of 0.51 percent. The second surcharge is an additional tax equal to 14 percent of base tax plus surcharge. The combined effect is a maximum top tax rate of 4.46 percent. The nonresident earnings tax base is computed on gross taxable wages plus net earnings from self-employment, minus a \$3,000 exclusion which vanishes to zero. The tax rate applied to wages is 0.45 percent while the tax rate applied to net earnings from self-employment is 0.65 percent.

New York Racing Association (NYRA)

A privately-owned, non-profit corporation chartered by the State to conduct thoroughbred racing at Aqueduct, Belmont and Saratoga racetracks. NYRA is operated by professional management under the direction of a Board of Trustees which serves without compensation. NYRA pays the State a franchise fee for the right to conduct races and pari-mutuel wagering.

Off-Track Betting (OTB)

1970 legislation authorized New York City and other municipalities in the State to operate off-track betting systems to provide local government revenues and combat illegal bookmaking. Subsequent legislation created the State Racing and Wagering Board to regulate the seven geographic OTB regions encompassing all of New York State. Portions of the retained commissions on all wagers are distributed to racetracks, breeders funds and the State as prescribed by law. After deducting self-supporting operating expenses, OTB corporations remit the balance of these commissions and a surcharge to participating local governments.

Pari-Mutuel Taxes

A tax imposed on horse racetracks and OTB operators based on commissions and breakages. Also called the State's "take" or "take out," it is the State Racing and Wagering Board determined percentage of the total wagering pool. "Breakage" is the odd cents over any multiple of 10 cents not returned to the winning bettors calculated on the basis of a \$1.00 bet.

Preemption

A term used to describe rights to sales and compensating use tax revenues in overlapping taxing jurisdictions. Some municipalities within

	a county as well as the county may impose a local sales tax. The city and the county reach an agreement on dividing the local tax rate and revenues. For example, if County X imposes a countywide 3 percent sales and use tax, and City X also imposes a citywide 3 percent sales and use tax, and State law limits the total local sales tax rate to be 3 percent, County X will allow City X to acquire part or all of County X's sales tax rate within City X.
Racing Admissions Taxes	A 4 percent tax on racetracks and simulcast theater admissions.
Racing Season	Unless stated otherwise, a racing season is a calendar year.
Refund Reserve	A special fund containing income tax revenues earmarked for paying income tax refunds. Amounts reflected in the tables are net of fiscal year transactions where revenues are transferred into the fund from a prior year and transferred out to the next fiscal year.
State to City Offsets	Reconciliation of actual income tax liability with the estimated prior cash receipts distribution. Transfers are made between the State, New York City and Yonkers.
Stock Transfer Tax	A tax imposed on the sale or transfer of stock, agreements or memoranda of sales, certificates of interest in property or accumulations and certificates of interest in business conducted by trustees, within New York. A rebate program was enacted in October of 1979 and phased in over succeeding years so that the entire tax is now rebated.
Uncashed Ticket	Not all winning mutuel tickets are cashed by ticket holders. The State is allowed to retain the value of winning tickets not turned in within a specified time.
Wildlife Contributions	Voluntary taxpayer contributions to the State Department of Environmental Conservation's "Return a Gift to Wildlife" program. Personal income taxpayers may increase their final remittances or reduce their overpayments by the amount of their contribution.

Yonkers Personal Income Taxes

A personal income tax surcharge on Yonkers residents, plus an earnings tax on nonresidents earning wages or self-employment income in the City of Yonkers, apply. The resident surcharge is 15 percent of the resident's net State income tax. The nonresident earnings tax rate is 0.5 percent of net earnings or self-employment income after deductions.
